C. Operating Reserves Adjusted for 2012 Allocation Adjustment

Use the fields below to adjust the Operating Reserves (line B12) downward to account for the CY 2012 allocation adjustment. Where the PHA had an approved exclusion request AND subsequently revised the financial statements in Section A to account for some or all approved amounts, the fields below will also adjust the approved exclusion request downward. See PIH Notice 2011-55 for background on the entire CY 2012 allocation adjustment process.

Line	Description	
C1	Minimum Operating Reserves Threshold	
C2	Operating Reserves	
СЗа	Amount of Exclusion Request Approved by HUD	
C3b	Amount of Approved Exclusion Request already addressed by corrections to the FDS	
СЗс	Adjusted Amount of Approved Exclusion Request	
C4	Operating Reserves net of Adjusted Approved Exclusion Request	
C5	2012 Allocation Adjustment	
C6	Post-Adjustment Operating Reserves	

Notes

Enter Minimum Operating Reserves Threshold, equal to:

- For PHAs with 250 or more units: 4 months of Monthly Formula Expense or \$100,000, whichever is greater
- For PHAs with 249 or less units: 6 months of Monthly Formula Expense or \$100,000, whichever is greater

Line B12, calculated above.

For PHAs that submitted an appeal (exclusion request), enter the total amount approved by HUD. For PHAs that did not submit an appeal, or whose appeal was denied by HUD in its entirety, enter \$0.

Of the total on Line C3a, the PHA may have previously revised their financial statements to remove Category 1 amounts from the operating reserves. If so, record those Category 1 amounts in line C3b.

Line C3a minus Line C3b. The approved exclusion request is reduced by Category 1 amounts that the PHA has already removed from their operating reserves, via prior revision to financial statements.

Line C2 minus Line C3c. Except for Category 1 amounts in C3b, the PHA's current operating reserves have not been adjusted for approved exclusion requests. Line C4 reduces operating reserves appropriately.

The amount of allocation adjustment calculated by HUD for your PHA.

Line C4 minus Line C5. Equals PHA's operating reserves level at the end of the submission period from Section A, after adjusting for approved exclusion requests and for 2012 allocation adjustment. (Note: result could be less than zero.)
